

FORTY-SIXTH CONGRESS.

DAILY PROCEEDINGS OF THE SENATE AND HOUSE.

The (a) of States—A Bill of Discontinuance of the National Banking System Introduced.

WASHINGTON, D. C., Jan. 20.—The Speaker is proceeding, as of Monday, to call on the States for bills and resolutions. Among the bills referred was one introduced by Mr. Culberson, of Texas, for a discontinuance of the National Banking system.

The following bills were also introduced and referred, under the call of States:

By Mr. Cravens (Arkansas), for the settlement of titles in the town of Hot Springs, in Arkansas.

By Mr. Loring (Mass.), to amend the constitution so as to extend franchise to all citizens without distinction of sex.

By Mr. Warren (Maine), to provide for paying the bonds of the United States maturing in 1880 and 1881.

By Mr. Ellis (La.), appropriating \$500,000 for the relief of the destitute people of Ireland.

The House then took up the bill requiring National banks to keep half in reserve in coin, and Children (N. Y.) made a long and able speech in favor, and against legal tender treasury notes. He thought the government should deprive the greenbacks of their legal tender quality, and as soon as practicable convert all silver bullion now on hand into gold, and with that gold pay an equivalent amount of greenbacks.

He thought also that the Government should pay off the greenbacks with the surplus revenue instead of buying up bonds not yet due.

Mr. Lounsbury (N. Y.), followed with an argument in favor of withdrawing the legal tender quality of greenbacks.

The morning hour having expired, the bill went over without any action. The House, in Committee of the Whole, then resumed the consideration of the revision of the Rules.

Speeches in opposition to various proposed rules were made by Acklen (La.), Hank (Tenn.), and Williams (Wis.), and at 4:30 the House adjourned.

SENATE.

Senator Beck announced his intention to speak against the Bayard resolution to-morrow after the morning hour.

Senator Morgan presented a petition from 370 citizens of Philadelphia, remonstrating against any legislation by Congress to curtail the quantity or remove the legal tender quality of greenbacks or their displacement by bank notes. He did not know the petitioners, but they appeared to be working men and business men.

Senator Logan, by request, presented a petition from the soldiers for the Navy to inform the Senate whether the interest of the country required the restoration of the Pensacola navy yard to a state of efficiency, and the probable cost of such restoration. Adopted.

The morning hour having expired, the Senate resumed the consideration of the special order of the day, relative to the transportation of animals. After an extended debate in which Senators Thurman, Eaton, McPherson, and Davis, of West Virginia, took part, the bill was recommended to the Committee on Commerce. Adjourned.

MAINE MATTERS.

AUGUST, Jan. 21.—The Fusion House met at 10 o'clock in Union Hall. Speeches were made, counseling members to stand firm, and to recognize no usurping legislature, and to sustain the legal Governor Smith to the last.

The Fusion Senate met in the ante-room of Union Hall, and after an interchange of views of members, adjourned until 4 o'clock.

The position of the Fusionists has been much strengthened by events yesterday, by the refusal of Republicans to admit to the State House members who had been expelled from seats. This has led them to take a more hopeful view of the situation.

When the Republican House met this morning, Messrs. Hill and Merrill, two of the Fusion members, appeared and took their seats. Messrs. Kaplan and Benner, also Fusion members, had previously taken the same action.

The House received a communication from Wallace R. White, demanding an investigation of the charges of bribery made against him by the Fusion leaders. A special committee will be appointed for that purpose.

A resolution was introduced by Mr. Hale, was adopted by the House, and subsequently by the Senate, to the effect that the legislature of that State now has been legally organized in accordance with the constitution, and the Supreme Judicial Court, that the Governor and State officers have been duly elected, and are now in the performance of their duties, and that therefore the legislature will now proceed to the transaction of all public business, and give notice to the people of the State that all other bodies claiming to be the legislature are null and void.

The House and Senate are acting without authority and in violation of the Constitution and laws. It was also ordered that the Judiciary Committee be instructed to inquire whether or not, and if so what, legislation is necessary to prevent and punish the unauthorized obstruction and violation of State records and other State property, as well as the commission of other unauthorized acts in the name of the State.

The failure to gain admission to the State House yesterday has united the Fusionists, and they say that Governor Smith had ten thousand men ready to act at a moment's notice, but he consulted peace and peace prevailed. They also say they intend to appeal to Congress and will soon have a committee here to investigate matters.

FOREIGN ITEMS.

PARIS, Jan. 20.—The life of M. Jules Favre is despaired of. He suffers from pneumonia.

LONDON, Jan. 20.—Jules Favre, the eminent French statesman and Republican member of the Senate for the department of Rhone, and also a member of the French Academy, died last night at Versailles, at the age of seventy-one years.

THE MISSISSIPPI SENATORSHIP. JACKSON, Miss., Jan. 20.—There was no result reached in the caucus last night before the balloting commenced. General Waltham's name was withdrawn and General George proposed; five ballots, to be taken. Starfield Barksdale fifty-two, Singleton fifty-

CRUEL STORY OF THE SEA.

WRECK OF THE BRITISH BARK MARIA DUNAN.

Three Vessels Pass the Sinking Bark Without Rendering Assistance—Rescued at Last.

The story of the Maria Dunan is a pitiful one. She is a British bark, and sailed from Boston for Ipswich, England, with a cargo of coal, on the 27th of December. She was abandoned at sea, and her captain and crew were brought to the port of New York last week by the steamship Columbia, of the Anchor Line, which has come hither from the Mediterranean. The Columbia left in with the Maria Dunan about latitude 42 degrees and longitude 43 degrees. When sighted the bark was in a sinking condition. With sails blown from the bolt ropes, smashed spars, all her deck hatches carried away and her pumps choked and disabled, the vessel was covered with ice and water, and in a frightful state of exhaustion. Probably in a few hours more the Maria Dunan would have gone down in spite of all a crew in the best of health could have done to prevent it, but for the helplessness for many hours and crushed with despair as were these twelve unhappy mariners, their chance of preservation was slender indeed.

On the 30th of December, the third day was from Boston, the *Maria Dunan* was overtaken by the *Anchor*, which was making a head sea, and the water began to rise. The bark lay heavily, and on New Year's eve she was struggling with a violent wind, and the water began to rise. The bark lay heavily, and on New Year's eve she was struggling with a violent wind, and the water began to rise.

The bark began to settle by the stern, and the seams in her sides began to open. Nearly all her sails were still, and she was still showing, were split into ribbons or blown away. The maintop-gallant yard was jibed in two, and the spanker gaff and jib guys were carried away. The weather was piercingly cold, and the water began to rise.
